Benefits Of Using Super Gainer

Combined with a serious strength training regimen and a sensible, healthy diet, you will notice immediate gains in muscle mass and bodyweight when supplementing with Cyto Gainer.

Efficient: Cyto Gainer is almost entirely complex carbs and ultra high quality whey protein. The protein is glutamine-rich, partially pre-digested whey peptides for easy digestibility - it gets into your muscles fast. Carbs are complex maltodextrins from corn hybrids - stabilizes energy and prevents sugar crash.

Growth: Promotes an anabolic environment in your body - no more muscle catabolism due to lack of calories.

Digestibility: Allows massive caloric intake without the digestive distress and extra fat of solid meals.

Convenience: Mixes instantly in water so you can ingest calories immediately after training. No blender required.
